

Your experts in group accounting and reporting.

Supporting you in consolidation, planning, and financial analysis.

Group Factory Consulting GmbH is a consulting firm specializing in holistic consolidation solutions and financial reporting. Combining technological expertise with strategic insight, we support companies in the following areas:

Data Management

Structuring, optimizing, and efficiently managing financial and corporate data.

Consolidation

Seamless integration and alignment of financial data – for accurate, reliable, and audit-ready reporting.

Reporting

Automating and optimizing reporting processes to enable transparent, efficient corporate management.

Business Intelligence

Developing data-driven strategies that empower confident, informed decision-making.

Disclosure Management

Ensuring regulatory compliance while streamlining disclosure and reporting processes.

HR Process Optimization

Designing and standardizing HR processes for improved efficiency, structure, and transparency.

Mission

We deliver measurable value and greater efficiency in consolidation, reporting, and data management – through innovative consulting and technological excellence.

Vision

We cultivate a workplace where data-driven decisions form the foundation for long-term, sustainable business success.

Goals

We create future-ready solutions that enable transparent, high-performing corporate management – by combining technological expertise with strategic insight.

Code of Conduct

Our corporate culture is built on integrity, confidentiality, and a strong client focus. We operate in full alignment with legal and ethical standards – establishing a foundation of trust for enduring collaboration.

EXCEPTIONAL CONSULTING – OUR SERVICES PORTFOLIO

Tailored Consulting for Your Consolidation Processes

- Specialist consulting and hands-on support for streamlined consolidation workflows.
- Expertise in implementing and optimizing consolidation solutions—efficiently and with confidence.
- Flexible support—on-site or remote—tailored to your specific setup.
- International expertise in HGB, UGB, IFRS, US-GAAP, and country-specific compliance standards.

Targeted Support for Your Financial Closings

- Support for monthly, quarterly, and annual closing processes.
- Expertise across all accounting standards and regulatory frameworks.
- Flexible interim or recurring support based on your business needs.
- Optimization and automation of closing processes to boost efficiency and reduce workload.

Optimizing Your Reporting and Planning

- Consulting and support for implementing and optimizing planning and reporting systems.
- Focused on boosting efficiency and identifying key performance indicators relevant to strategic management.
- End-to-end guidance on layout, structure, and execution of reporting processes.
- Integration of best practices to ensure precise, effective, and future-ready financial planning.

HR Process Optimization

- Streamlining and standardizing HR processes for greater consistency and impact.
- Support for integrating and enhancing key HR workflows.
- Flexible HR support—interim or as needed.
- Improving transparency and efficiency across your HR process landscape.
- Assistance with monthly, quarterly, or annual HR-related closings.

25+ Years of Expertise in Consolidation Tools

With more than 25 years of hands-on experience in consolidation tools such as IDL.KONSIS and others, we deliver precise, efficient, and reliable data processing.

Sustainable Consulting with a Hands-On Approach

Practical, real-world solutions that lead to fast implementation and lasting impact.

Comprehensive Support in Group Planning

Professional guidance for monthly and annual closings, plus long-term planning to support well-informed decisions.

Tailored, Future-Ready Planning Solutions

Solutions built for efficiency and stability – to support your company's sustainable success.

Software Expertise

Implementation and optimization of advanced reporting and analytics systems – including dashboards and KPI frameworks – for actionable, data-driven insights.

Efficient Data Processes & Interfaces

Streamlined processes for effective financial performance management and seamless integration into your existing system landscape.
