GROUP FACTORY
CONSULTING

The right finance system landscape starts with the right questions.

GFC Finance System Navigator: Orientation. Evaluation. Perspectives.

Our consulting does not start with software – it starts with your requirements.

Rising requirements for group financial statements, reporting and data management, legacy IT structures and new technologies confront finance departments with important decisions. With the **GFC Finance System Navigator**, we guide you from the **initial assessment** and **requirements analysis** to a **well-founded evaluation** of possible solutions.
